## Objectives

English	French
<p>The SIM4NEXUS project aims to develop a sustainable natural resource management through a 'Nexus' approach. The SIM4NEXUS project is funded by the EU commission from 2016 to 2020 and gather more than 20 partners from all around EU.</p> <p>The 'Nexus' approach in SIM4NEXUS enables to describe the interactions and links between water, energy, food, land use and climate components on a defined scope (local, national, European or worldwide).</p> <p>The 2 main outputs of SIM4NEXUS are i) modellings describing interactions between the Nexus components and ii) a serious game that is based on those modellings.</p> <p>In the context of SIM4NEXUS, Strane Innovation is leading the exploitation work package to sustain the outputs of the project.</p> <p>This workshop aims to brainstorm and define collectively on the potential uses of the SIM4NEXUS serious game and the wide range of potential applications.</p>	<p>Le projet SIM4NEXUS travaille sur la gestion durable des ressources naturelles, via une approche 'Nexus'. Le projet SIM4NEXUS est financé par la commission européenne de 2016 à 2020 et réuni plus de 20 partenaires de toute l'Europe.</p> <p>L'approche 'Nexus' développée dans SIM4ENXUS permet de décrire l'ensemble des liens et interactions entre l'eau, l'énergie, l'alimentation, l'usage des sols et le climat sur un périmètre donné (région, pays, continent ou monde).</p> <p>Les deux résultats majeurs de SIM4NEXUS sont i) des modélisations des interactions entre les composantes d'un territoire et ii) un serious game qui intègre l'ensemble de ces modélisations.</p> <p>Dans ce contexte, Strane Innovation est chargée de l'exploitation du projet pour pérenniser les résultats et avancées de SIM4NEXUS.</p> <p>Le but de ce workshop est de brainstormer et définir collectivement les utilisations potentielles du serious game de SIM4NEXUS et son spectre d'utilisation.</p>
